From Hon. W. H. Jones, of West Dover, Vermont.

"I have been troubled from my boyhood with chronic or hereditary lung complaint. Some years since, early in the winter, I took cold, which as usual settled into a severe cough, which continued to increase as the season advanced, although I made use of all the cough remedies I had knowledge of. My family physician also prescribed for me, but I felt no relief. During all this time I was gradually running down, losing flesh and strength, until my friends as well as myself, became very much alarmed, thinking I should waste away in consumption. While in Boston, during the spring following, I was induced to try WISTAR'S BALSAM OF WILD CHERRY. After one day's trial I was sensible that it was relieving me; in ten days time my cough had entirely ceased, and I was soon restored to my health and strength. I have ever since kept the BALSAM in my house, and whenever any member of my family has a cough or cold, it is immediately resorted to. No family should be without it." Sold by all druggists.

A Gentle Hint.

In our style of climate, with its sudden changes of temperature—rain, wind and sunshine, often intermingled in a single day—it is no wonder that our children, friends and relatives are so frequently taken from us by neglected colds, half the deaths resulting directly from this cause. A bottle of Boschnee's German Syrup kept about your home for immediate use will prevent serious sickness, a large doctor's bill and, perhaps, death, by the use of three or four doses. For curing Consumption, Hemorrhages, Pneumonia, Severe Coughs, Croup, or any disease of the Throat or Lungs, its success is simply wonderful, as your druggist will tell you. German Syrup is now sold in every town and village on this continent. Sample bottles for trial 10 cents; regular size, 75 cents. *

The Machine was Worn Out.

Why? Not because it was not well built, but it was wrongly run. Thousands of men who have run down long before their three-score and ten years are accomplished, might have been renewed into sprightliness and vim if they had tried the well-known PERUVIAN SYRUP, which contains among its compounds the Protoxide of Iron, so combined that it assimilates with the blood and invigorates the whole system. This syrup has proved efficacious in thousands of cases, and will do everybody good who uses it. All druggists keep it. *

A Remarkable Result.

It makes no difference how many Physicians, or how much medicine you have tried, it is now an established fact that German Syrup is the only remedy which has given complete satisfaction in severe cases of Lung Disease. It is true there are yet thousands of persons who are predisposed to Throat and Lung Affections, Consumption, Hemorrhages, Asthma, Severe Colds settled on the Breast, Pneumonia, Whooping Cough, &c., who have no personal knowledge of Boschee's German Syrup. To such we would say that 50,000 dozen were sold last year without one complaint. Consumptives, try just one bottle. Regular size 75 cents. Sold by all Druggists in America. *

OLD CHICORY is almost a thing of the past. Finlayson's Coffee presides over the present. It has now superceded what used to be claimed as "superior to any other manufactured on this coast," and will soon be found on every well-furnished table in the Province. Prepared at his premises on Fort Street, and sold by all the principal dealers. *

PEACE PROCLAIMED.—After ten years of active warfare! I have been at war with my customers for ten long years, and I am now ready to DYE FOR THEM at reduced rates. Gents' clothes cleaned and repaired; faded curtains and clothing restored and made to appear as good as when new. Customers abroad will not have reason to grumble at prices if they send their articles to T. W. Pierre, tailor and dyer, Yates street, next door to Reynolds' butcher shop. Castoff clothing taken in exchange for work. *

DR. JAMES, Broughton St., opposite Council Chambers, can be consulted daily. Of nearly 50 years' extensive practice in England, America, and Australia. He extracts polypus and cancer without the use of the knife when taken in time. Dr. James is the discoverer of a medicine which cures all local rheumatic pains as soon as applied. DR. JAMES is in possession of medicines that never failed to stop and cure DIPTHERIA, SMALLPOX, CROUP and all FEVERS in a few hours. N. B.—Mrs. James, midwife of long experience and successful practice in this city, is open to engagement.

Blank Book Manufactory and Book Bindery.

Paper ruled to any pattern. Tickets, Receipts, etc., numbered and perforated. Charts and maps mounted. The best classes of modern machinery employed. R. T. WILLIAMS, Government street, entrance through Messrs. Hibben & Co's store. *

JOB PRINTING.—A fine line of new job type was received by the City of Panama at *The Colonist*. Billheads, cards, circulars and posters are now turned out at very low rates in first-class style. *

LEGISLATIVE ASSEMBLY.

PRIVATE BILLS.

ALL APPLICATIONS FOR PRIVATE BILLS properly the subject of legislation by the Legislative Assembly of British Columbia, within the purview of the "British North American Act, 1867," whether for the erection of a Bridge, the making of a Railroad, Turnpike Road, or Telegraph Line; the construction or improvement of a Harbour, Canal, Lock, Dam or Slide, or other like work; the granting of a right of Ferry; the incorporation of any particular trade or calling, or of any Joint Stock Company; or otherwise for granting to any individual or individuals any exclusive or peculiar rights or privileges whatever, or for doing any matter or thing which in its operation would affect the rights or property of other parties, or relate to any particular class of the community; or for making any amendment of a like nature to any former Act—shall require a Notice, clearly and distinctly specifying the nature and object of the application to be published as follows:—

A notice inserted in the BRITISH COLUMBIA GAZETTE and in one newspaper published in the District affected, or if there be no newspaper published therein, then in a newspaper in the next nearest District in which a newspaper is published.

Such notice shall be continued in each case for a period of at least six weeks, during the interval of time between the close of the next preceding Session and the consideration of the Petition.

Before any petition, praying for leave to bring in a Private Bill for the erection of a Toll Bridge is presented to the House, the person or persons intending to petition for such a Bill shall, upon giving the notice prescribed by the preceding rule, also at the same time and in the same manner, give notice of the rates which they intend to ask, the extent of the privilege, the height of the arches, the interval between the abutments or piers for the passage of rafts and vessels, and mentioning also whether they intend to erect a drawbridge or not, and the dimensions of the same.

ELECTORS!
RESERVE YOUR PLEDGES.

TO THE ELECTORS OF VANCOUVER DISTRICT.

GENTLEMEN:—HAVING BEEN CALLED UPON by a large number of merchants, farmers, workingmen and others to represent Vancouver District in the House of Commons at the ensuing general election, and believing that there never was a period in the history of our adopted country more critical than the present—when honest, industrious men, who constitute the bone and sinew of the commonwealth, should look after their rights—when commercial men who are in the channels of trade—enterprising men who develop the resources of the country—workingmen whose honest toil revolves the wheel of commerce and puts the whole machinery in motion—should give that attention and care to public interests which are justly expected of every true patriot and loyal citizen. And having, moreover, been intimately acquainted with the political interests of the Dominion in the Eastern Provinces, and having helped to place men in power who have been the workingman's friends and the friends of progress, such as the Hons. Sir J. A. Macdonald, Ontario; S. L. Tilley, N. B.; Dr. Tupper, N. S.; and J. C. Pope, P. E. I.; I shall, if elected by your suffrages, be found working shoulder to shoulder with such men for the country's weal.

I am led to this determination for the simple reason that the present Government have failed to act justly with British Columbia, after five years of unlimited power. They have given us no definite hope of the immediate construction of the Canadian Pacific Railway and no change of Tariff on account of our isolated and distant geographical position. I advocate therefore:

1. Immediate railway construction and the honorable fulfillment of what is known as the Carnarvon Terms.

2. The erection of a Drydock at once as being, like the Railway, not only a Provincial but also a national necessity.

3. The importation free of duty of all material required for the rigging and fitting of ships that cannot be procured in this Province.

4. A just and equitable adjustment of both Export and Import Dues from a reciprocal point of view, which would benefit largely the Commercial, Mining, Agricultural and Lumbering interests of the Districts as well as of the whole Province.

5. I would also strive to secure a new Postoffice for the thriving city of Nanaimo, and failing in that, some improvement at least upon the shameful neglect of its present postal facilities.

Other local and provincial wants which may call for legislative redress shall receive, if I am elected, my serious attention and warmest support.

I shall take an early opportunity of holding public meetings in the various sections of your wide and extensive district (of which due notice will be given) at which I shall, as also in private intercourse, fully explain the course I intend to pursue, and hope as the result of that to receive your generous support.

I have the honor to be, Gentlemen,
Your obedient servant,
A. J. McLELLAN.

MISCELLANEOUS.

DR. J. COLLIS BROWNE'S
(Ex Army Med. Staff),
CHLORODYNE
IS THE ORIGINAL AND ONLY GENUINE.

CAUTION.—Vice-Chancellor Sir W. P. Ward stated that DR. COLLIS BROWNE was undoubtedly the inventor of CHLORODYNE; that the story of the defendant, Freeman, being the inventor was deliberately untrue which he regretted had been sworn to. Eminent Hospital Physicians of London stated that Dr. J. Collis Browne was the discoverer of Chlorodyne; that they prescribe it largely and mean no other than Dr. Browne's.—See "Times," July 12, 1864.

The public, therefore, are cautioned against using any other than
DR. J. COLLIS BROWNE'S CHLORODYNE.
REMEDIAL USES AND ACTION.

This INVALUABLE REMEDY produces quiet, refreshing sleep, relieves pain, calms the nervous system, restores the deranged functions and stimulates healthy action of the secretions of the body without creating any of those unpleasant results attending the use of opium. Old and young may take it at all hours and times when requisite. Thousands of persons testify to its marvelous good effects and wonderful cures, while medical men extol its virtues most extensively, using it extensively in the following diseases:

Diseases in which it is found eminently useful—Cholera, Dysentery, Diarrhœa, Colics Coughs, Asthma, Cramp, Rheumatism, Neuralgia, Cough, Hysteria.

The Right Hon. Earl Russell communicated to the College of Physicians and J. T. Davenport that he had received information to the effect that the only remedy of any service in Cholera was Chlorodyne.—See "Lancet," Dec. 31, 1864.

From A. Montgomery, Esq., late inspector of Hospitals, Bombay: Chlorodyne is a most valuable remedy for Neuralgia, Asthma and Dysentery. To it I fairly owe my restoration to health after eighteen months severe suffering, and when other medicines had failed.

Dr. Lowe, Medical Missionary in India, reports (Dec., 1865,) that in nearly every case of Cholera in which Dr. Collis Browne's Chlorodyne was administered the patient recovered.

Extract from "Medical Times," Jan. 10, 1866.—Chlorodyne is prescribed by scores of orthodox remedial practioners. Of course it would not thus be singularly popular did it not supply a want and fill a place.

Extract from the general Board of Health, London, as to its efficacy in Cholera.—So strongly are we convinced of the immense value of this remedy, that we cannot too forcibly urge the necessity of adopting it in all cases.

Beware of spurious and dangerous compounds sold as CHLORODYNE, from which frequent fatal results have followed.

Sold in bottles at 1s 1½d, 2s 9d, 4s 6d, and 11s each.
CAUTION.—None Genuine without the words "Dr. J. Collis Browne" on the Government stamp. Overwhelming medical testimony accompanies each bottle.

Come ye citizens and strangers,
Miners, sailors and Western rangers,
Listen to the truthful story,
Of Frank Campbell of Victoria.
He in truthful words will tell you
Just the goods he has to sell you.
Mind ye now he isn't joking,
If you are fond of chewing and smoking,
Or if you are given to snuffing,
What he keeps does not need puffing.
He has brands will suit you really,
Tobacco users prize them dearly;
From all parts of the "Old Dominion"
He has stock, and his

WHO KILLED COCK ROBIN?

The hired organ of the Government has begun to treat the Chinese Tax Bill as already dead—disallowed at Ottawa. This is about what Mr. WALKEM said when he introduced the Bill into the House: "I do not think it will be allowed at Ottawa." We added that it was drawn in the interest of large employers of Chinese labor and was expressly got up for the slaughter-house at Ottawa. What said Mr. BULL, who spoke well and sensibly at the Workingmen's meeting the other evening? While admitting the evil of Chinese labor and calling on the laboring classes to organize to prevent its obtaining too strong a hold on the community, he said: "I do not believe the Bill will be allowed at Ottawa." What did Mr. Galbraith say? "Having been elected by *a large majority* [one] of the white workingmen of Kootenay [he got 17 votes altogether] I am bound to see that the interests of the workingmen are protected; but—[there's always a "but" about everything this Government undertakes]—but this Bill may not be allowed at Ottawa," etc., etc. You see that the doubt which exists in the minds of the Government respecting the Bill will crop out in spite of themselves. But if stronger evidence of the treachery of the Ministry were wanting it is found in the fact that at the very last moment of the session the Bill which had passed its third reading a few days before was brought down by the Government for the insertion of a clause providing that it shall not come into operation for one month from the date of its approval by the Lieut.-Governor. Why this delay? To allow the measure twelve days in which to reach Ottawa, six days for consideration and disallowance by the Ministry there, and twelve days to get back to Victoria. We have asked "who killed cock robin?" It is impossible to take from anything that which it never possessed. The Chinese Tax Bill was never alive, consequently it could not be killed. The one great element of sincerity was not breathed into it. If the Government were in earnest in having a resolution passed to prohibit the employment of Chinese on public works, would they have followed it up with the Chinese Tax Bill, which provides that all Chinese delinquent in the payment of the tax shall *work it out on the roads at fifty cents a day!* In looking over the report of Mr. WALKEM's speech at the Workingmen's meeting we are amused to find that gentleman saying, "So long as I am at the head of the affairs of this Government there shall not be a dollar of public money paid to a Chinaman." Mr. WALKEM was at the head of this Government from 1873 to 1876, and spent something like one million and a quarter of dollars on public works—"scattered it broadcast," as Brother DUCK remarked; and scarcely any laborer who was not a Chinaman, and a pagan to boot, was then able to get a day's work on the roads. The country swarmed with Celestials, who elbowed needy white men out of the country and reduced several worthy families who had come to settle to want. And when *The Colonist* protested against the employment of Chinese, the *Standard* was instructed to insult white workingmen and declare that the Chinese were morally and intellectually the superiors of white men. It was not until the ELLIOTT Government came into office that any effort was made to throw public work into white hands. The Premier discourses glibly on withholding public monies from Chinamen, when every one knows that while in office he spent all the public money he could beg, borrow or ——appropriate to encourage Chinese labor. Now, when the public money is all gone is scarcely the time for pledges of amendment. We are disposed to doubt the efficacy of a deathbed repentance. The time for Mr. WALKEM to have conserved the interests of white workingmen was when there was money in the Treasury to spend on public improvements; not when the Finance Minister, like Old Mother Hubbard has gone to the cupboard and found it bare—the outgoing Government having been forced to spend large sums in liquidation of debts contracted by their predecessors.

Danger for the Dominion.

(N. Y. World.)

The only drawback to the appointment of the Marquis of Lorne as Governor-General of Canada, as the *World* has already pointed out, is the possibility that the establishment of a semi-royal court at Ottawa may breed a display of flunkeyism which, beginning by being ridiculous, may end by being serious. There is an entire absence of the nobility which would naturally form the court, and the only permanent society at the capital is formed of the members of the Civil Service, against whom the charge has frequently been brought of poverty, pride and pretentiousness. Qeerly enough, people who are, as the Canadian phrase is, "in the Government," families of the deputy heads, chief clerks, etc., assume a superiority over the mere Senators and members of the Commons. In many instances the department clerk is of "good family;" as a rule the Legislator is the country lawyer, physician, merchant or farmer; equally as a rule the Legislator does not go to Ottawa accompanied by his family. The city is small and new, and has, it may be said, no resident aristocracy of wealth and long establishment such as in the natural order of things has grown up at Montreal, Quebec and Toronto. The French-Canadian seigneurs, among whom will be found representatives of many of the oldest families of France, who do not yield in gentle and courtly attributes to any of their ancestors, dwell in semi-feudal style in their country houses. In fine, outside of the Civil Service and the resident members of the Cabinet, Ottawa has practically no society, and, naturally, in so new a country some clever men of very humble origin are high in office and influence. The Premier, Mr. Mackenzie, was, we believe, a stone-mason, and there are such things to be seen at Ottawa as a Senator who was not many years ago an axeman in a lumbering shanty at $12 a month, or an M. P. from British Columbia who runs foot races for small sums with butchers and other worthy constituents. There is nothing in all this to be ashamed of or to be surprised at, but it must be admitted that there are here very unpromising elements for the establishment of a semi-royal court. When the wife of the department clerk whose father was the fourth son of the younger son of an earl has to give the *pas* to the wife of the M. P. who got him the clerkship, the wife in question having plied the menial broom in early life, there will be a situation created the possible consequences of which readers can imagine. Then there is the virtuous, straight-laced element which has already begun to complain that Lord Dufferin's open-handed hospitality has been as a cunning device of the Evil One, leading young men to run into debt at their tailors' and maidens to dress beyond their parents' station. Further, there is the fierce Democracy, already opposed to "British connection" and "princelings" and things, and, as if there were not enough complications already in existence, here comes an American dancing-master—an American!—"who was at Rideau Hall for a couple of weeks last winter teaching their Excellencies the American waltzes," and issues the following proclamation:

"I have the honor to inform you that I will return from London, England, on or about the 1st September, when I shall respectfully make application to you for permission to get up a class in 'court presentation, also the etiquette of receptions at Rideau Hall, Ottawa, and at the Government houses in the different Provinces in the Dominion. Should his Royal Highness Prince Arthur be the next Governor-General of Canada it will entail a court, and such a course of lessons will he highly necessary. I go to England with the *official* permission of the Marquis of Hertford, Lord Chamberlain to Her Majesty, who writes and says 'he will be very happy to give me all the details of court ceremonies,' and 'there are no printed rules on the subject;' so by being taught personally by his Lordship I will be prepared to teach it in exact accordance with the distinguished authority.

"I highly appreciate the honor conferred on me by His Lordship, as it is an honor which has never been given to an American before. I will teach walking and bowing as taught by the best masters in London and Paris, every conceivable form of reception, dinner in state by royalty, also dinner as given by the Governor-General of Canada, also, private dinners, entering and leaving parlors in accordance with the rules governing the movements of the titled ladies in Europe, the Prince and Princess of Wales' receptions, wedding receptions, and, in fact, every essential phase of parlor education. I can complete the course in five practical lectures or lessons.

"Getting in and out of a carriage will be taught practically.

"I have over two hundred and fifty disputed points in etiquette, which I shall submit to His Lordship, and, he being the highest authority in the world on such subjects, his answers will be conclusive. I will bring back with me a magnificent court train for practical illustrations.

"I hope it will be borne in mind that I will be the only person on this side of the ocean capable of teaching court presentation. I will also receive applications from ladies to teach the above in small classes at their residences.

"Terms reasonable, with percentage to schools."

Mr. Turveydrop will have to call into play all his talents and accomplishments of Deportment to enable himself to take a back seat with sufficient humility in the presence of this awful American who has gone to Europe to discuss two hundred and fifty disputed points in etiquette with the Lord Chamberlain. The spectacle of the Marquis of Hertford, who, we believe, has well-nigh attained to three score years and ten, "chassaying around" and teaching a Yankee dancing-master how to approach a royal personage presented by a chair is simply delicious. All this, together with walking and bowing, as taught by the best masters in London and Paris, with dinner in state by royalty, with getting in and out of a carriage, and with every essential phase of parlor education (with use of magnificent court train for practical instructions) will be taught in five lessons on reasonable terms, with per centage to schools!

We do not like to take the bread from mouth of our enterprising countryman, hence we will not inform him that there is already, and has been for ten years, an official order of procedure for use at the "Court" at Ottawa, also that there is an Usher of the Black Rod who is quite competent in all matters of ceremonial and deportment to give the Marquis of Hertford, as one might say, "points." M. Rene Kimber, whose grace, agility and dignity were simply marvellous, was so conscientious an artist that he went to Europe and consulted the imperial master of ceremonies at Paris and Berlin as well as the authorities at the Court of St. James; and although we believe his son has succeeded him as Gentleman Usher, it is certain that there has been no abating of the awful state of the office. The Princess Louise will find, either at Spencer Wood or Rideau Hall, the most scrupulously correct etiquette observed; but woe, woe, and tenfold woe, when the dancing-masters begin to invade the domestic circle and the boarding-school and to teach court ceremonials in five lessons!

REMOVED,

A. GILMORE wishes to inform his friends and the public that he has removed to the Commission Store on Johnson street, where he will continue to sell at invoice prices.

Garments made to order at cost, as he is closing out that branch of his business

DENTISTRY.—Dr. Cool calls attention to the beautiful alluminium-lined vulcanite plates for upper and lower sets. The advantage of this work is that it is very thin, much stronger and lighter than the common plate usually worn; also, being a better conductor of heat and cold, it does not produce the irritation, sometimes caused by rubber or non-conducting substances. I make these sets for $35, something never before done, and guarantee my patrons that after once wearing one of them they will wear no other. The treatment of diseased teeth and fine operating I make a specialty. Teeth built up with pure gold to their natural contour; artificial crowns adjusted to roots in the best manner. Work of every description done anywhere I engage to do at the most reasonable prices. *

WARRANTED FOR EVER.—The manufacturer of the Raymond Sewing Machines now issues a certificate of warranty to all purchasers of sewing machines of his manufacture. The "Raymond" has been for ten years in constant use by the British Columbia public. They give unqualified satisfaction; they do everything; they do it well. Every new improvement is attached to the "Raymond." Its popularity and its sales increase. Call and see the "guarantee" which is furnished with each "Raymond" Sewing Machine. A new supply of these unequalled machines recently received. A. B. Gray & Co., sole agents for British Columbia. N. B.—Attachments for all kinds of sewing machines on hand, including new descriptions of hemmers, tuckers, frillers, etc. *

GOOD WHITE COTTON for family use, $2 per dozen; 5¾ and 6 light colored kid gloves, best quality, 50c. per pair. WARREN & YORK, Fort street. *

IF heretofore you have been unable to wear a set of artificial teeth call on Dr. Cool. He will guarantee all his work *

Professor Phillips' Trip to Alberni.

Professor J. S. Phillips, the well known metallurgist, who was in this Province a few weeks since, has written a letter to the San Francisco *Mining and Scientific Press* describing his trip to Alberni. Having landed near the Qualicum river, about 45 miles north of Nanaimo, Professor Phillips says: I strayed along the pebbled shore to see what kind of rocks had been washed by the river from the interior, and was somewhat disappointed to find them of igneous origin. We started at about 1 o'clock for crossing the island to what is called the Alberni canal, or more properly, the navigable head of the Barclay sound, an extremly beautiful and well wooded valley, which forms that deep-water inlet from the western, or outside coast, of Vancouver's Island. After passing about half over the island we camped by a splendid sheet of water, about six miles long by half a mile wide, and which, excepting at the Qualicum river outlet, is surrounded by steep mountains. The pebbled shores of the lake also exposed various igneous rocks. At 6 p. m. next day we reached the Alberni canal and some kind-hearted, hospitable farmers, located upon a horizontal region, about five miles in diameter. This flat district will probably yield coal, as the proper indications are in some places exposed by the washings in the gulches. The mountain passed over and those surrounding this coal measure are, however, too igneous for coal or vein formations. Notwithstanding this, I was informed that no less than twelve parties have left Victoria at different times for the prospection of this mountain for cinnabar, but I saw nothing there or *en route* having the least similarity to that mineral. There was, however, a great deal of very hard red jasper in places, but always in the wrong country rock, and therefore could not be regarded as being indicative of the mineral of mercury. Our next day's journey was by an unstable canoe over the deep waters of the Barclay sound, about half way out toward the ocean, to the mouth of the Ashlet river, a rapidly falling and powerful, but unnavigable stream."

The Professor then goes on to describe the difficulties attending travel on foot up the valley of the Ashlet and says that "after three days' journey and the sixth and last of our journey to the source of the river we reached our destination, which I named Bear Basin. It may be also stated that a prospector cannot judge of either distant or close lying rocks by appearance, as they are almost invariably covered with moss or a very thin encrustation of vegetable growth, so that the hammer must be used continually for breaking, to expose the interior and true character of the stone. Bear Basin and the Ashlet river may be said to resemble a large spoon with a long crooked handle, running westerly, the margin of which, particularly at the upper end or basin, is composed of steep mountains, 4,000 or 5,000 feet high, which receive the snows of winter as reservoirs, that dissolving in summer, form several waterfalls, which sink beneath the gravel debris of the basin, to reappear in forming the source of the river. The rock formations of the margin of this river and basin do not materially differ from those described before, only in showing occasional patches of trachyte, with the more general bed of trap. In reference to the so-called quartz veins I went to examine, which were said to lie in granite and slate, you may readily imagine them worthless in the igneous rocks described; they were really just as many inches wide as feet stated, and running very irregularly but a few feet in length, and if they were found good it would have required at least $30,000 to make a road for delivering a suitable mill for working the mines. Passing the matter of vein mining, I found more sulphuret of iron disseminated through the bedrock, than I have ever seen elsewhere; and an immense deposit of gravel in this basin and the upper and adjoining parts of the river which had been concentrated and deposited at remote periods of time, by the heavy washings of gradually receding ocean waters which then played upon the declivities of these mountains, and we located for the company 40 acres of the basin and 2,500 feet down river for hydraulic and ground sluice mining, by the unusually convenient and abundant falls of head waters and the river's outlet for discharge of tailings. I have rarely seen a more interesting gravel deposit, and as the approaching section of the ancient bottom of the river channel may be easily and cheaply proven by "ground sluicing" for about $2,000, I strongly advised its accomplishment, and as it is now being executed, it is very probable that profitable results will be attained; and if so, not only will there be a long run on the river, but a large and very valuable property beyond for future "hydraulic" mining. Be this as it may, 50 persistent pioneering Chinamen have been working the lower half of this same river for years, by much more laborious "wing-dams" and "crevicing," where they are evidently doing well. All the leading streams from the interior of the island have produced gold. Before leaving this region I climbed to the top of the very steep mountain margin of the Bear basin, where I discovered a small lake and a river's headwaters, which ran southerly, but neither was marked on the map. * * * I was shown a very good specimen of mineral bearing blue carbonate of lime, which had been taken from a hill in a northerly bearing inlet, lower down and near the mouth of Barclay Sound."

Professor Phillips having spent six days on and around the ground, examining, etc., retraced his footsteps to the salt water and finally reached this city in safety.

TO BE RESISTED.—The public will be glad to hear that the Dominion officials have taken legal steps to resist their disenfranchisement by the myrmidons of the Local Government. We have every reason to believe that those steps will prove effectual.

Municipal Police Court.

[Before H. C. Courtney, Esq.]

THURSDAY, Sept. 4.

Ah Tin, charged with supplying intoxicating liquor to Indians. The prisoner, who is an old offender, was sentenced to two months' imprisonment with hard labor and to pay a fine of $50, or in default, three months' additional imprisonment.

Edward F. Cummings, on remand, charged with robbery on board the steamer Isabel.

Mr. McCreight, Q. C., instructed by Mr. Smith, said he had sent for a witness from New Westminster who was unable, however, to appear. He would now ask His Honor if he thought the evidence already produced would justify his committing the prisoner for trial?

His Honor said the evidence appeared to him to be such as to cast suspicion on the prisoner, who had failed to account for his possession of the money which almost precisely corresponded with that lost by Mrs. Dale on board the steamer. He would therefore commit the prisoner for trial, fixing his bail at two sureties of $250 each, and a personal surety of $500.

Three D. and D. Indians were dealt with in a summary manner.

A boy aged 10 years, giving the name of Israel Peart, and who had been in prison for several days past for safe keeping, was then brought up. The lad was very scantily dressed and without shoes or stockings on his feet.

His Honor—Mr. Superintendent, have you followed my instructions in this case?

Superintendent Bowden—I have, your Honor. Dr. Helmcken is of opinion that the boy is unfit to be at large.

His Honor then stated that he had examined into the practice followed in England in similar cases, which was to send such boys to prison and give them a certain number of lashes; but in the case of Peart he did not thing such a course would result in any good. The cruelty the lad had been guilty was something His Honor had never heard of before. He had been in the habit of amusing himself by cutting the feet off chickens and picking their eyes out with a pin; cutting ducks' feet off and making them walk on the raw stumps of their legs; threatening to cut his sister's hands off and standing over her with a knife almost touching her throat and telling her he would murder her; he had set fire to private property, and in fact had always been in dangerous mischief. His Honor regretted that there was no reformatory in the Province to send the boy to; but as he could not let him be at large he would send him to the city prison for a month with hard labor within its walls, and if he refused to do what the authorities told him the gaoler would see that he was fed on nothing but bread and water. In the course of the next few days he would be examined by another doctor and if that gentleman agreed with Dr. Helmcken that he was unfit to be at large he would be transferred to the insane asylum for treatment there.

The Court then adjourned.

MISS SOLTER.—This lady brings letters of introduction to some of our leading citizens, including Allen Francis, Esq., the American Consul, from persons of high position and respectability in the United States. Miss Solter has traveled much in Europe and America and possesses a fund of information and a rare faculty of imparting it to others. It is proposed that she shall give a parlor lecture at some private house in this city to which a number of ladies and gentlemen who have a taste for what is beautiful and interesting in history and art will be invited. Miss Solter has two lectures—"Denmark and the Danes," and "Thorvaldsen," both of which are pronounced of a high class.

ARSON, ATTEMPT AT MURDER AND SUICIDE.—A. H. Manson, an early resident of New Westminster, where, we think, he was once a Town Councillor, recently married the principal of a ladies' boarding school at Laurel Hill, California. His habits not suiting his wife she discarded him, whereupon he tried to burn up his helpmate and the boarding school inmates by setting fire to the building. When his wife came out to give the alarm he fired two shots from a revolver at her and fled to San Francisco. Tracked to his hiding place by policemen, he fastened the door and blew out his brains. This tragedy occurred about nine days ago.

MARINE.—The bark Mathilde, in ballast, 46 days from Callao, anchored in Royal Roads yesterday for orders. The bark Nereid, 32 days from Yokohama, also arrived; she comes seeking. The bark Ethel, now 130 days out from Liverpool, consigned to Messrs. Welch, Rithet & Co. with 800 tons assorted merchandise, may be expected to arrive at any moment. The bark Chorocua, loading Fraser river salmon at Esquimalt for England, is rapidly filling up, having already 32,000 cases on board. In addition to her complement of salmon she will carry away a lot of wool and will sail for London on or about the 15th inst.

TAMPERING WITH THE LISTS.—The voting lists of the various districts are now under revision by the Attorney-General and his aids. It is said that 42 schoolmasters, about 70 Dominion and about 60 Provincial officials will be struck off. Tampering with the voting lists is a very serious offence, which the Government may learn to their cost in the course of a few days.

COLLECTION OF THE FIRST CHINESE HEAD TAX.—The Government collected the first Chinese head tax yesterday—ten dollars from one Ah Hoy, who has been employed in the capacity of cook at the lunatic asylum, and who, having an account against the Government, presented it and received the sum called for less $10, deducted for three months' tax from the 2d September to the 2d December.

CITY COUNCIL.—A special meeting of the City Council will be held this evening, when the charges of intoxication and neglect of duty made against the assistant Water Commissioner by the City Surveyor will be investigated. A quantity of deferred committee business will also be dealt with.

PERSONAL.—Amongst the arrivals from the East by the City of Panama, after an absence of eight months, were J. Hunter, Esq., and wife, of this city, who have taken rooms at the Driard House. Mr. Hunter has been appointed chief engineer of the Canadian Pacific Telegraph line and will leave for the Mainland in the course of a few days.

THE steamer Alexander arrived in port last evening from Nanaimo, having gone there from Burrard Inlet, expecting to tow down the brig Sheet Anchor and bark Hecla. Neither vessel was ready, however, for sea.

INDIAN HEE-HEE HOUSE.—The Songish Indians are building a theatre on the reserve for the cultivation of the native *dram*-atic talent.

Suicide at Yale.

Early on Tuesday morning last, a young Canadian named Neilson committed suicide at Yale by shooting himself through the temples with a five-shooter. Deceased was a native of Belleville, Ont., aged about 25 years, and came to this country a few months since, when he was engaged by Mr. Uriah Nelson to take charge of his store at Yale. During Mr. Nelson's absence in Cariboo it appears Neilson had some slight misunderstanding with a person connected with the firm, and that in consequence thereof he voluntarily relinquished his position. On the return, however, of Mr. U. Nelson to Yale Mr. Neilson again accepted charge of the store, and had been employed only a few days under his second engagement when he committed suicide. In the room where he died he left a long letter to Mr. Goodenough, telegraph operator at Yale, the contents of which will be made public at the inquest and will probably explain the circumstances that induced the young man to kill himself.

TERRIBLE COLLISION.—The collision between two steamers on the Thames (particulars of which will be found among our exclusive dispatches) is one of those sudden and awful calamities which the exercise of ordinary foresight and skill seems inadequate to avert. The account of 600 or 700 excursionists full of life and spirits, suddenly engulphed and done to death by the cruel waves, is one of the most melancholy occurrences it has fallen to our lot to record for a long time. The loss of life is almost unparalleled, and the misery that will be carried into many homes will be almost incalculable.

PUGET SOUND.—On Sunday morning a 19 months' old son of the captain of the brig Tanner fell off the rail of that vessel at Port Blakeley, and struck his head and shoulders upon the edge of a small boat. The injuries proved fatal.... Wm. Waugh, a graduate of the Victoria chaingang, convicted at Seattle of larceny and robbery, has been sentenced at Seattle to five years with hard labor in the penitentiary.... Diphtheria is raging in the White river country.

THE ROYAL COMMISSION.—It is reported that the Government have had their fill of the Royal Commission and that they contemplate the revocation of the powers delgated to that body. It is scarcely necessary for us to say that the inquiry will proceed, no matter whose hitherto fair fame may be tarnished. If the Commission should effect no other purpose than expose the rottenness of the rotten borough of Kootenay it will deserve well of the country.

C. P. TELEGRAPH.—Mr. M. Ross, late of the Western Union Telegraph Co's employ, leaves to-day by the Wilson G. Hunt to commence the construction of the Canadian Pacific Telegraph line at Cache Creek to connect the existing lines with Kamloops.

LUNATIC ASYLUM.—There are rumors afloat at New Westminster to the effect that in consequence of the force of keepers having been reduced by the Government, it will be found necessary to manacle all the dangerous lunatics to prevent them bolting *en masse*.

THE REIGN OF TERROR.—A supporter of the Government while in his cups was heard to declare in a bar-room on Tuesday that even if the Gag Law be upset by the courts any local official who dared to vote at the forthcoming election would be instantly dismissed from his position.

GARDEN THIEVES.—Several gardens in the heart of the town have been robbed of choice plants lately. In one instance, at least, the thief is known, and should the depredations be continued he will be exposed.

DELEGATES.—At a meeting of Deluge Engine Co., V. F. D. held last evening, Messrs. T. Geiger, W. Lohse and A. Rose were re-elected members of the Board of Delegates by acclamation.

GOVERNMENT HOUSE.—In consequence of the death of Mrs. Richards' brother, Government House will not be open to visitors to-day.

A POWDER BLAST.

Eleven Hundred Kegs Struck by Lightning.

Pottsville, Pa, August 18—During the storm on Saturday afternoon the powder magazine of Weldy & Co., on the outskirts of this place, was struck by lightning. There were eleven hundred kegs of powder in the building, and a terrible explosion ensued, completely demolishing the magazine, and scattering debris with terrific force in an easterly direction, making a gap in the woods fifty feet wide. A picnicking party was assembled in the woods a short distance below the magazine, two of whom were killed, five injured so as to render amputation necessary, and a number of others more or less injured by flying stones, timbers, &c. Many cattle badly injured. Had to be afterwards killed. The explosion was heard eleven miles, and caused great excitement in the city. The large plate glass windows of the Pottsville Bank and the Mountain City Bank were broken, as also were many windows in the Court House. Ceilings in a number of residences were thrown down. The house of Jas. Galbraith at Mount Hope is a complete wreck. Total loss is estimated at $45,000.

ADDITIONAL PARTICULARS.

The effects of the explosion of 1,200 kegs of powder on Saturday were felt all over the city. People were thrown out of their chairs in distant parts of the city. Twenty-five houses were crushed to pieces and hurled miles away. The scene at the picnic was frightful, it being in the path of the explosion, huge masses of stones and fragments of trees being hurled among the picnickers. A horse attached to a buggy driven by two young ladies was torn to pieces, but the ladies escaped.

MEXICO.

CITY OF MEXICO, Aug. 24.—Reports in Texas papers of revolutions in Mexico are untrue. The country never was freer from anarchy than now and no president has been so universally popular or so strong as Porfirio Diaz.

EUROPE.

CONSTANTINOPLE, Sept. 3.—Turkish troops, after eight hours' fighting, defeated the Adona insurgents and captured the town. Six bands of Hellenic insurgents are reported in Macedonia and the neighbourhood of Javena. Several Turkish battalions have consequently been ordered to Mooaster from Salonica. It is reported two Turkish men-of-war have been ordered to cruise off the Greek coast.

CONSTANTINOPLE, Sept. 4.—It is reported that the British fleet will shortly withdraw to Pascha Linham, an island south of the island of Marmora. It has been decided that a cordon of Turkish troops shall separate the Russian lines from the positions of the Rhodope insurgents.

SOUTHERN STATES.

NEW ORLEANS, Sept. 4.—The fever at Greenville continues to increase rapidly. Seventy-five new cases reported there and 14 deaths. The city sexton reports 36 interments in the past twenty-four hours. One physician reports 60 new cases. The number of new cases will go far above any other day's since the fever appeared. Weather unfavorable; heavy rain; new cases 212; deaths 72.

VICKSBURG, Sept. 2.—Seventy cases reported at Greenville, Miss., 14 deaths; 30 cases and 4 deaths at Goodrich's Landing.

DREADFUL STEAMBOAT ACCIDENT ON THE THAMES!

AN EXCURSION STEAMER RUN INTO BY A STEAM COLLIER.

Six Hundred and Fifty Lives Lost!

LONDON, Sept. 3.—The excursion steamer Princess Alice, returning from Gravesend this evening with about 800 passengers, was run down off Barking about 8 o'clock by a screw steamer. It is reported that between 400 and 500 persons were drowned. The Princess Alice was struck amidships and sank almost immediately. The number of persons drowned is variously estimated at from 500 to 550. The higher estimate is the latest and given by the London Steamboat Company, owners of the Princess Alice. The Company's wharf is besieged by crowds of people anxious to hear of relatives and friends who were passengers on the ill-fated boat.

LONDON, Sept. 4.—Later—The steamer which sunk the Princess Alice is supposed to be the Biwell Castle, a screw collier bound north in ballast. The steward of the Princess Alice states that after the collision the other steamer proceeded without attempting to render aid. He estimated that 700 persons were on board the Princess Alice. She sank bow first in five minutes after she was struck. Some small boats and another excursion steamer rendered what assistance was possible. The drowned include an extraordinary proportion of women and children. They describe the water as being covered with hundreds of shrieking people. The captain and nearly all the crew of the Princess Alice were drowned. They had no time to lower the boats and there were only a few life-buoys on the steamer. All the police of Woolwich town and arsenal were engaged last night labelling corpses, chiefly women and children, which completely fill the guard room at the steamship company's office at Woolwich. Passengers who scrambled on board the Biwell Castle say she threw ropes to the people struggling in the water. The number lost is still uncertain. A comparison of the various accounts seem to show about 560 lost. The Princess Alice was a paddle-wheel steamer with raised saloon. Her gross tonnage was 251 tons. That of the Biwell Castle 1376 tons.

The steamer Princess Alice which was run into and sunk with such frightful results last evening by the collier Biwell Castle, was one of the largest saloon steamers of the London Steamboat Company. The Princess Alice left Gravesend for London soon after 6 o'clock this morning and arrived within sight of the Royal arsenal at Woolwich at about 8. The Biwell Castle was approaching on the opposite course. The two steamers were near the middle of the stream just off the City of London gas works at Beckton, almost the precise spot of the fatal collision between the Metis and Wentworth ten years ago. What happened it is impossible accurately to detail. All that is known amid the maddening excitement is that the screw steamer struck the Princess Alice on the port side near the fore sponsor. A scene which has had no parallel on the river ensued. Very few persons clambered on the other vessel; but nearly all rushed to the afterpart of the Princess Alice as the bow subsided gradually under water. The shrieks were fearful and nothing could be done to save life. There were a dozen or more life-buoys on board and some boats were swinging in the davits; but even if they could have been got at they would have been of very little service under the circumstances. Within five minutes the Princess Alice keeled completely over and went down in deep water. Some small boats hastened to the scene, and the Duke of Teck, another steamer belonging to the same company, which was also on the passage up-river with a party of excursionists, went to the rescue; but the river for a hundred yards was filled with drowning persons screaming in anguish and praying for help, and as it was growing dark then not much could be done. It is believed that not more than 150 persons escaped out of 800 aboard the vessel. The Princess Alice was built for excursions down the Thames, of which the middle and poorer classes of London are very fond.

LONDON, Sept. 4.—In the case of the Princess Alice disaster it is believed that both vessels were rounding a sharp bend in the river caused by the projection of a point of land whereon the powder magazine of Woolwich arsenal is situated. In order to run this point the Princess Alice had crossed over to the right bank of the river and was thus out of her proper course. Her lights were probably obscured by the shadow of the powder magazine and being much smaller and lower than the Biwell Castle the latter was upon her before danger was perceived.

HIGH LIFE SCANDAL IN DENMARK.

Extraordinary Cruelty of a Mother who was Jealous of her Daughter's Beauty.

The Copenhagen correspondent of an English journal is responsible for the following story:

A painful piece of scandal in high life is just now the talk of everybody here, and as the matter is being publicly discussed in the Press there is no reason not to mention the names of the persons implicated. Rumors had already long being circulated that the two daughters, young ladies of sixteen and seventeen years, of M. de Tobiesen, one of the King's chamberlains and Minister of the Interior in a late Cabinet, were being very harshly treated by their mother, their father not having sufficient strength of mind or character to prevent this cruelty, but this rumor was generally believed to be at least greatly exaggerated, and M. de Tobiesen was even a special favourite at Court. About a fortnight ago, the eldest daughter was one morning found starving in a dog kennel, belonging to a neighbor, and on being questioned by a young lady belonging to one of the highest families in the country, she declared that she had run away from her home to avoid the repeated cruel ill-treatment inflicted on her by her mother on the slighest pretense, and it was later discovered that her body was one mass of bruises, and discolored by the whipping inflicted on her. She declared that she was gagged and tied, and then nearly every day she was undressed and severely beaten, not to mention other acts of cruelty, which are of such a refined nature that they remind one of the horrors of the Inquisition—a steel pin being, for instance placed in such a manner in the neck of her dress that she had to hold her head in one position all day long if she would not run the pin into her chin. I need hardly describe the indignation produced in the neighborhood against this unnatural mother and weak hubsand, and of course the affair soon became public and reached the ears of the royal family. M. de Tobiesen then requested an audience with the Queen, presumably to try to explain the matter away, but not only was the audience refused to him, but I understand that with that exquisite tact and true kindness of heart which distinguishes all her Majesty's acts the Queen herself, being a most affectionate mother, it was intimated to M. de Tobiesen that his two daughters from that moment stood under the special protection of Her Majesty, who would order the necessary preparations to be made for sending the two young ladies to a boarding school in Paris. It is not impossible that to appease the cry of equal justice to rich and poor, high and low, which is raised by the population and called for by the press, Mme. de Tobiesen may have to appear in the dock of the Criminal Court. The only motive for this unnatural cruelty appears that the mother, who at one time was a celebrated beauty, was jealous of her own children. I must say, for the honor of country, that this case is fortunately a unique example.

CLERICAL CLOTHES.

Trouble Occasioned by a Curate's Trousers.

An amusing scandal has arisen in a certain parish in the Diocese of Worcester. A young clergyman, curate of the parish, has incurred displeasure by daring to wear a dress which did not exactly accord with the worthy vicar's taste in these matters. No small stir has been caused in consequence of the curate officiating in a pair of "unmentionables" not of the regulation black, but being of some ordinary mundane color and pattern, such as are usually worn by a layman while riding or walking. The cleric who is charged with wearing the ordinary dress of an English genteman, is quitting the parish, (where he has secured the esteem and respect of the parishoners,) "in consequence of the vicar taking objection to the color of a pair of trousers which he wore while officiating on several occasions."

If the curate had donned a cassock which had trailed upon the encaustic tiles, a surplice reaching only to the knee, and with colored stole and biretta had ventured to perform his clerical functions, it is doubtful whether he would have provoked in a greater degree the ire of the offended vicar. But his only offense appears to be that of wearing a pair of "unmentionables" not of a sable hue.

What would the vicar think of a clergyman who, not so long ago, used to appear at divine service in top boots, and possibly wearing under his surplice "the pink" in which he had been following the hounds? That—no unfrequent occurrence in days gone by—might have been viewed as an offense against the laws ecclesiastical, as well as indicating an unfitness for the sacred office; but merely appearing in church in nether garments of a lighter hue than the coat would surely only be viewed as an unpardonable offense by a mind given to dwelling upon mere trivialities, and sedulously desirous of getting rid of a clerical junior who was so rash as not to submit his clerical attire to the judgment of the vicar.

Report does say that the condemned trousers—or a portion thereof—have been solemnly submitted to the Bishop of the diocese, but we have not heard the Episcopal judgment pronounced. We sincerely hope the Bishop's license will not be withdrawn for so trifling an offense(?); but we shall certainly look now for a duly prescribed code of clerical attire, approved by Convocation; also, for a list of tailors specially appointed to manufacture clerical suits, who shall incur heavy penalties for making and selling to young unbeneficed clergymen other than the solemn, sober-suited attire usually worn at funerals. We cannot conclude these observations without expressing our admiration of the good sense of the parishioners, who, after the manner of Englishmen—and we doubt not, in this case of Englishwomen also—are about to show their appreciation of the young clergyman's services during his residence among them by presenting him with a testimonial. What form the presentation will take we have yet to learn, but we trust it will be in some sense a solace for his recent experience of vicarial tyranny, and that in his new parish he may meet with a vicar of larger and more liberal views, and that his future clerical career may be a prosperous and happy one, culminating in a deanery, or at least a respectable canonry.—*London Figaro, Aug 10th.*

A Remarkable Case.

A large proportion of the American people are to-day dying from the effects of Dyspepsia or disordered liver. The result of these diseases upon the masses of intelligent and valuable people is most alarming, making life actually a burden instead of a pleasant existence of enjoyment and usefulness as it ought to be. There is no good reason for this, if you will only throw aside prejudice and skepticism, take the advice of Druggists and your friends, and try one bottle of Green's August Flower. Your speedy relief is certain. Millions of bottles of this medicine have been given away to try its virtues, with satisfactory results in every case. You can buy a sample bottle for 10 cents to try. Three doses will relieve the worst case. Positively sold by all Druggists on the Western Continent. *

PEACE PROCLAIMED.—After ten years of active warfare! I have been at war with my customers for ten long years, and I am now ready to DYE FOR THEM at reduced rates. Gents' clothes cleaned and repaired; faded curtains and clothing restored and made to appear as good as when new. Customers abroad will not have reason to grumble at prices if they send their articles to T. W. Pierre, tailor and dyer, Yates street, next door to Reynolds' butcher shop. Castoff clothing taken in exchange for work. *
